

# Head Start

The Council for Economic Opportunities' Head Start preschool program offers a high-quality, holistic approach for children and families, coupled with a delivery system that includes national standards, monitoring, professional development and family engagement at all 17 Head Start centers. Centers are high-quality and four-or-five star certified by the State of Ohio's Step Up to Quality program and are currently working on obtaining PRE4CLE certification.

There are 17 Head Start locations throughout Cuyahoga.

Head Start Centers are open from 7AM – 6PM (Monday – Friday) with Full and Part Day program options.

## Home Base Head Start

The Home Base Head Start program delivers the Head Start curriculum to the child through weekly visits by qualified Head Start Home Visitors who works with parent and child at their home. Home Base Head Start is a great option for parents who aren't quite ready for their child to enter a school setting or if parent feels their child would benefit more from the one-on-one nature of the program. Families also have the option for their children to visit and learn twice a month through socialization activities held at a local Head Start location. Both Head Start preschool and the Early Head Start infants and toddlers program options are offered in the Home Base Program.

## Early Head Start

Early Head Start provides a family with the support and structure they need to start their child's early life off right. Before the child is born, the program provides prenatal support and assistance to the mother, lending a helping hand to make sure that she is ready for the delivery and the arrival of her new baby. This support and assistance includes prenatal coaching, nutritional counseling, childbirth education and newborn and parenting classes. When the child is born, the Early Head Start program offers a nurturing and developmentally enriching environment for the newborn to grow. Once the child reaches six weeks of age, he or she is ready to join a classroom with age-appropriate toys, equipment and learning materials. The Council for Economic Opportunities offers Early Head Start services at several locations in Cuyahoga County.
