North Olmsted City School District Administrative Offices 27425 Butternut Ridge Road North Olmsted, Ohio 44070

December 16, 2011

Members of the North Olmsted Board of Education and Residents of North Olmsted City School District:

We are pleased to submit to you the Comprehensive Annual Financial Report (CAFR) of the North Olmsted City School District for the year ended June 30, 2011. This CAFR includes an opinion from the State Auditor and conforms to U.S. generally accepted accounting principles as applicable to governmental entities. Responsibility for the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, rests with the School District. To the best of our knowledge and belief, the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of the School District. This report will provide the taxpayers of the North Olmsted City School District with comprehensive financial data in a format that will enable them to gain an understanding of the School District's financial affairs. Copies will be made available to the North Olmsted Public Library, major taxpayers, financial rating services, local bankers and other interested parties.

## THE REPORTING ENTITY

North Olmsted City School District has reviewed its reporting entity definition in order to ensure conformance with the Governmental Accounting Standards Board Statement (GASB) No. 14, "The Financial Reporting Entity" as amended by GASB Statement No. 39, "Determining Whether Certain Organizations are Component Units". In evaluating how to define the School District for financial reporting purposes, management has considered all agencies, departments and organizations making up the North Olmsted City School District (the primary government) and its potential component units.

Excluded from the reporting entity because they are fiscally independent of the School District are the City of North Olmsted, the Cuyahoga County Public Library and the Parent Teacher Association. A complete discussion of the School District's reporting entity is provided in Note 1 to the basic financial statements.

The School District is a member of the Lake Erie Educational Computer Association, the Polaris Career Center, the North Olmsted City Schools Education Foundation and the Ohio Schools Council Association. The relationship of these jointly governed organizations with the School District is described in more detail in Note 15 of the basic financial statements.

## **ORGANIZATIONAL STRUCTURE**

Statutorily, the School District operates under the standard prescribed by the Ohio State Board of Education as provided in division (D) of Section 3301.07 of the Ohio Revised Code, to provide educational services prescribed by State and Federal agencies. The Board of Education is made up of five members elected at large, for overlapping four-year terms. The Board of Education elects its President and Vice President annually, and appoints two officials: the Superintendent, who serves as the Chief Executive Officer, and the Treasurer, who serves as the Chief Financial Officer. The District is one of 876 public school districts and community schools in the State of Ohio. The District provides education to 4,314 students in grades kindergarten through twelfth. The District provides general education, special education and vocational type academic programs. The District's enrollment has declined 601 students or 14.6 percent over the past decade.

## **SCHOOL DISTRICT**

The North Olmsted City School District is located in western Cuyahoga County, approximately 17 miles southwest of downtown Cleveland. The School District encompasses the entire City of North Olmsted, a community with a population of approximately 31,100. The City is primarily residential with a significant commercial tax base of retail businesses.

The School District was chartered in 1831 by the Ohio State legislature two years after the name "Olmstead" was assigned to the area. The region was named after Aaron Olmstead, an investor and Revolutionary War soldier who purchased land in the area in 1794. The exact time and reason for changing to the current spelling is unclear from the historical records. In 1837, under the auspices of the Office of the State Superintendent of Common School Education, Township Trustees were authorized to levy compulsory taxes for the support of public education. In 1853 State laws were enacted to create locally elected boards of education to govern local school districts. Today, the North Olmsted Board of Education is comprised of five members, elected at large, with staggered four year terms.

Statutorily, the School District operates under standards prescribed by the Ohio State Board of Education as provided in Section 3301.07(D) of the Ohio Revised Code, to provide educational services authorized by charter and further mandated by State and Federal agencies. Under Ohio law, the School District is a separate and distinct unit of government with its own taxing authority.

## **ECONOMIC CONDITION AND OUTLOOK**

North Olmsted City Schools, like most school districts in Northeast Ohio, is facing a serious decline in operating revenues due to the nationwide economic recession and foreclosure crisis. North Olmsted is experiencing a significant rise in tax delinquencies, a decline in real estate property values, and a 10 to 15 percent cut back in state funding. Fortunately, the economic impact of these losses in operating revenues has been softened with the passage of 7.9 mill operating levy in November 2010 and \$2.9 million in budgetary cuts and \$2.8 million in wage concessions from the unions.

The new 7.9 mill operating levy will generate approximately \$6.5 million of additional real estate tax revenue annually when completely phased in over the next two fiscal years. The budgetary cuts were obtained when the Superintendent of Schools eliminated 2 administrative, 12 teaching, and 25 support staff positions for the fiscal year 2010-11. The labor unions have also contributed to the financial stabilization of the District's finances by giving back a scheduled 2.55% salary increase in fiscal year 2010-11 and agreeing to a base salary freeze for the 2011-12 fiscal year.

A detailed analysis of future impact the above additional revenue and cost saving measures will have on the District's financial forecast and the assumptions used in its preparation can be found on the District's website "www.northolmstedschools.org".

## **MAJOR INITIATIVES - FISCAL YEAR 2011**

## **Excellence in Academics**

The North Olmsted City Schools continue to earn top ratings on the State Report Card for their academic program. The School District earned the State of Ohio's top rating of "Excellent" for the sixth consecutive year during the fiscal year 2010-11. North Olmsted is 1 of only 353 school districts out of 613 in the entire State of Ohio to be rated Excellent for the fiscal year 2010-11. Of our nine schools, seven earned ratings of Excellent and one earned an Effective rating. The Middle School reached the top ranking of Excellent with Distinction for the second consecutive year. The North Olmsted High School has been rated Excellent for ten consecutive years. Our community can be very proud of the accomplishments and hard work of its students, staff and their parents in an Excellent rating and the continued commitment to focus our resources on a top quality education for our students

North Olmsted High School seniors consistently score above the national average on the American College Test (ACT). North Olmsted students taking the ACT had a composite score of 23.2. This exceeds both the National average of 21.1 and the State average of 21.7. Out of a graduating class of 360 seniors: (84) eighty-four received an Honors Diploma by earning a 3.5 or better G.P.A. and a 27 or better score on the ACT; and (78) seventy-eight were awarded the Presidential Award of Educational Excellence by earning a 3.5 or better G.P.A. and having an ACT score in the 85<sup>th</sup> percentile.

During the school year, one student from North Olmsted became a finalist the National Merit Scholarship Program and six students received the Commended Student recognition.

Butternut Primary School was recognized as one of only 122 schools in the state to earn the Schools of Promise for the fiscal year 2010-11. This award recognizes the high reading and math achievement of students in a school building where the percent of economically disadvantaged students is greater than 40%. This is the fourth year in a row that Butternut Primary School has achieved this honor.

The Graduation Class of 2011 received over \$9.8 million in scholarships for advanced education to the schools of their choice; \$78,000 from community clubs and organizations, and additional \$11,500 from the North Olmsted Education Foundation.

## **Excellence in the Arts**

North Olmsted School students supplied original artwork for a community calendar. Called "The Town Planner", this calendar is provided to all businesses and residents in the community. The calendar provides the community members with a variety of North Olmsted City School District information, facts and figures. This has become a cost effective communication tool for both the City of North Olmsted leadership and the schools.

The North Olmsted High School annual Festival of the Arts showcases student talent in both art and music. This annual event includes a student art gallery at the High School and has begun to include performances by various student musical groups.

During this fiscal year the North Olmsted High School Symphony Orchestra participated in the Ohio Music Education Association (OMEA) State Orchestra contest. This year the students in the North Olmsted Symphony Orchestra earned the rating of Superior in all categories. The Superior rating is the highest available and the best for North Olmsted High School in a number of years. The North Olmsted High School Wind Ensemble also participated in the Ohio Music Education Association contest this year. They, too, earned the rating of Superior in their class. The Wind Ensemble also had the honor of being one of only two schools in their division to advance to the State level contest.

Two North Olmsted High School art students had their work submitted to the 2010 Art Criticism Open. The Open concentrates on making art criticism and writing a focus of instruction. One student placed third, with another receiving an Honorable mention. Both students received a Certificate of Recognition at the 2010 Ohio Governor's Youth Art Exhibition in April 2010. Five students from North Olmsted High School received 13 awards at the 31<sup>st</sup> Annual Regional Scholastic Art Competition. Students who receive Portfolio Awards and Gold Key Awards continue to the national completion in New York City. The award-winning works of these students had been on display in the 31<sup>st</sup> Regional Scholastic Art Exhibition located in the Reinberger Galleries of the Cleveland Institute of Art.

## **Excellence in Community Service**

The award winning SITES (Social Involvement Through Education and Service) program for North Olmsted High School seniors is recognized by the State of Ohio and at the national level as a model program and best practice for service-learning. Students have contributed over 500,000 service hours since the program began in 1991 providing community assistance to area nursing homes, daycare centers, the North Olmsted Senior Center and many local businesses. Their efforts are done in partnership with the City of North Olmsted, the North Olmsted City Schools Education Foundation, and The North Olmsted Kiwanis.

Each spring the SITES students travel to southeastern Ohio to learn about the people of the Appalachian region of our state. Their week of service includes working with various community agencies for the elderly and working with disabled adults in a sheltered workshop. The students work with the people of the community in cleaning and weatherizing homes.

High School SITES students continue to educate young students on how to recycle, Recycle bins have been placed in all District buildings and both staff and students are encouraged to keep the planet healthy by being "green". The SITES students also sponsor an annual Seniorfest, a lunch and dance for seniors in the community; as well as the annual Salute to Veteran's Day ceremony.

Students, along with staff members all across the District, support the annual Adopt-a-Family Program. This program serves many needy families in the community, and provides for holiday gifts for families that otherwise would do without.

The SITES students also sponsored a "Blankets for Babies" project for the local Providence House Shelter for mothers and their newborns.

The High School Key club collected over 180 pints of blood for the American Red Cross.

## **Excellence in Athletics**

Over 500 students participate in the sports program at the High School each year, and approximately 300 at the Middle School. There are opportunities for all students to participate in athletics other than football and basketball. North Olmsted's athletic program also includes ice hockey, wrestling, boys and girls softball and cross-country teams. Many North Olmsted student athletes have earned thousands of dollars with athletic scholarships. Many have gone on to sign with colleges across the country to further both their academic as well as athletic standings.

The North Olmsted High School's Athletic Hall of Fame held its 12<sup>th</sup> Annual Induction Ceremony in May of 2011. Seventy former North Olmsted Eagle athletes and coaches have been inducted into the Hall of Fame since its inception in 2000. The Hall of Fame also provides two scholarships each year to graduating seniors, and has provided over \$24,000 in scholarships to graduating seniors since its inception.

During the school year, the Girls Cross County Team qualified for the State Regional Tournament; the Boys soccer Team ranked in the Cleveland Top 10 all season; the Girls Golf Team set a record for a low 9-hole team total of 181; the boys bowling team won the North Shore League Championship; One student qualified for states in wrestling; and the Hockey team won the Trinity tournament and were SWC district champs

## Other Accomplishments

During the summer of 2010, the School District participated in the USDA Extended Summer Meals Program. The District partnered with the North Olmsted City Recreation Department and Horizon Activity Centers to serve as host sites to provide breakfasts, lunches and snacks to all children ages 1 through 18 during the months of June, July and August. Over 21,000 meals and snacks were served during the 49 days the program operated and earned a profit of \$18,000.

## LONG-TERM FINANCIAL PLANNING

As part of the District's long-term planning, the Treasurer prepares a five-year financial forecast. This document provides a snapshot of historical and projected revenues and expenses over the next five years and is accompanied by financial assumptions. The Board of Education reviews this document on a quarterly basis for changes that might impact their district financial decisions. The School District's five year financial forecast and the assumptions used in its preparation can be found on the District's website "northolmstedschools.org".

## FINANCIAL POLICIES IMPACTING THE FINANCIAL STATEMENTS

The Board of Education has adopted guidelines to maintain a prudent level of financial resources to protect the School District against the need to reduce service levels or raise taxes and fees due to temporary revenue shortfalls or unpredicted one-time expenditures. To achieve this goal, the Board of Education has established a budget stabilization fund, a medical claims reserve fund, and a contingency fund to finance the next 27<sup>th</sup> pay period scheduled to occur during the 2015-16 fiscal year. A detailed discussion of these funds is provided in Notes 10.C and 17 to the basic financial statements.

The Board of Education has also adopted administrative procedures to compare actual expenditures to budget monthly and quarterly for the purpose of taking appropriate actions to bring the budget into balance.

## **FINANCIAL INFORMATION**

## **Internal Accounting and Budgetary Control**

In developing the School District's accounting system, much consideration was given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute assurance regarding the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance is based on the assumption that the cost of internal accounting controls should not exceed the benefits expected to be derived from their implementation.

The School District utilizes a fully automated accounting system as well as an automated system of control for capital assets and payroll. These systems, coupled with the manual auditing of each voucher prior to payment, ensure that the financial information generated is both accurate and reliable.

At the beginning of each fiscal year, the Board of Education adopts a temporary appropriation measure. A permanent appropriation measure is subsequently adopted upon receipt from the County Auditor of an amended certificate of estimated resources based on final assessed values and tax rates, which is usually within the first three months of the fiscal year.

Annual appropriations may not exceed the County Budget Commission's official estimate of resources. The County Auditor must certify that the Board of Education's appropriation measures, including any supplements or amendments, do not exceed the amount set forth in the latest of those official estimates.

All disbursements and transfers of cash between funds require appropriation authority from the Board. The legal level of appropriations is at the fund/object level for the General Fund and Debt Service Fund, at the fund/special cost center level for the Other Grants Fund, Miscellaneous State Grants Fund, Auxiliary Services Fund and Miscellaneous Federal Grants Fund, and at the fund level for all other funds. All budgets are maintained at the object account level within a function and fund. All purchase order requests must be approved by either the Superintendent or Assistant Superintendent and certified by the Treasurer; necessary funds are then encumbered and purchase orders are released to vendors. Those requests that exceed the available appropriation are rejected until additional appropriations are secured.

The accounting system used by the School District provides interim financial reports which detail year-to-date expenditures and encumbrances versus the original appropriation plus any additional appropriations made to date. Each administrator and school principal is furnished monthly reports showing the status of the budget accounts for which they are responsible. In addition, an on-line inquiry system is available at each cost center site. The basis of accounting and the various funds utilized by the North Olmsted City Schools are fully described in Note 1 of the Notes to the Basic Financial Statements. Additional information on the School District's budgetary accounting can also be found in Note 1.

## **Financial Presentation**

The School District has prepared its financial statements following the guidelines of GASB Statement No. 34, "Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments". GASB 34 creates basic financial statements for reporting on the School District's financial activities as follows:

**Government-wide Financial Statements** - These statements are prepared on an accrual basis of accounting, which is similar to the basis of accounting followed by businesses. The government-wide statements distinguish between those activities of the School District that are governmental and those that are considered business-type activities. The District has no business-type activities.

**Fund Financial Statements** - These statements present information for individual major funds rather than by fund type. Non-major funds are presented in total in one column. Governmental funds use the modified accrual basis of accounting and include a reconciliation to the governmental activities accrual information presented in the government-wide financial statements. Proprietary and fiduciary funds use the accrual basis of accounting.

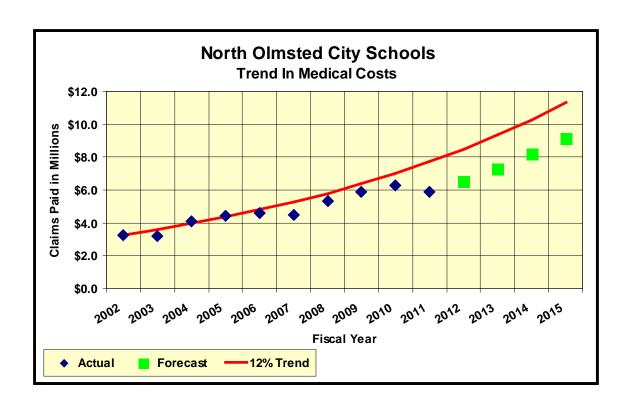

**Statement of Budgetary Comparisons** - These statements present comparisons of actual information to the legally adopted budget. The budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances.

Management is responsible for preparing a Management Discussion and Analysis (MD&A) of the School District. This discussion follows the Independent Accountants' Report and provides an assessment of the School District's finances for fiscal year 2011 and a discussion of current issues affecting the School District in the future. Because that discussion focuses on major funds, other non-major funds are discussed briefly in this letter of transmittal.

## Financial Highlight - Internal Service Fund

During fiscal year 2010, only one activity, the Self-Insurance Fund, is reported as an internal service fund. The Self-Insurance Fund accounts for the revenue and expenses associated with the School District's medical, prescription drug and dental benefits provided to its employees. The District limits its liability for medical and surgical claims by maintaining a specific stop-loss insurance policy with a maximum threshold of \$100,000.

As of June 30, 2011, the Self-Insurance Fund had net assets of \$1,504,505. The District is concerned with spiraling health care costs. As illustrated in the graph below, health care costs have been increasing at an annual rate of 12.0 percent. To help off-set rising health care costs, the Unions have agreed to pay 7.5 percent of the cost of the monthly insurance premiums. Administrators are required to pay 10 percent of the cost of their monthly healthcare. The Unions have also agreed to double the co-pays for prescription drugs and enroll their spouses in a coordination of benefit program.

## Financial Highlight - Agency Fund

Included in this category are student managed activities assets held by the School District in a trustee capacity. Total assets in these funds at June 30, 2011 were \$137,459.

## **INDEPENDENT AUDIT**

State statutes and federal regulations require the School District to be subjected to periodical examinations by an independent auditor. An annual audit serves to maintain and strengthen the School District's accounting and budgetary controls. The Independent Auditor of State was selected to render an opinion on the School District's financial statements for the year ended June 30, 2011. The opinion appears at the beginning of the financial section of this report.

Pursuant to statute, the State prescribes a uniform accounting system to standardize accounting classification and financial reporting for all school districts in Ohio. North Olmsted City School District adopted and has been in conformance with this system beginning with its financial report for the 1979 year.

## **AWARDS**

## **GFOA Certificate of Achievement**

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the North Olmsted City School District for it Comprehensive Annual Financial Report for the year ended June 30, 2010. In 1985, North Olmsted City School District was the first school district in Ohio to receive this award and has received the award for (27) twenty-seven consecutive years. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

## **ASBO International Certificate of Excellence**

The School District received the Association of School Business Officials (ASBO) International Certificate of Achievement for Excellence in Financial Reporting for its Comprehensive Annual Financial Report for the year ended June 30, 2010. This is the (24th) twenty-fourth consecutive Certificate of Excellence award that North Olmsted City Schools has received. The Certificate of Excellence in Financial Reporting Program was designed by ASBO International to enable school business officials to achieve a high standard of financial reporting.

Since its inception in 1972, the program has gained the distinction of being a prestigious national award recognized by: accounting professionals; underwriters; securities analysts; bond rating agencies; state and federal agencies. A Certificate of Achievement is valid for a period of one year. We believe our current report continues to conform to the Certificate of Achievement Program requirements, and we are submitting it to ASBO.

## **ACKNOWLEDGMENTS**

The publication of this report significantly increases the accountability of the School District to the taxpayers of North Olmsted City School District. This accomplishment would not have been possible without the support and efforts of the staff of the Treasurer's office, administrators and employees of the School District. Assistance from the County Auditor's office staff and outside agencies made possible the fair presentation of statistical data. In addition, special appreciation is expressed to Robbie Cerney from the firm of Costin & Company, CPA, Inc. for the advice and guidance rendered to the production of this report.

Respectfully submitted,

## INDEPENDENT ACCOUNTANTS' REPORT

North Olmsted City School District Cuyahoga County 27425 Butternut Ridge Road North Olmsted, Ohio 44070

To the Board of Education:

We have audited the accompanying financial statements of the governmental activities, the major fund, and the aggregate remaining fund information of the North Olmsted City School District, Cuyahoga County, Ohio (the District), as of and for the year ended June 30, 2011, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require that we plan and perform the audit to reasonably assure whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the major fund, and the aggregate remaining fund information of the North Olmsted City School District, Cuyahoga County, Ohio, as of June 30, 2011, and the respective changes in financial position and where applicable, cash flows, thereof and the budgetary comparison for the General Fund and for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As described in Note 2, the District implemented Governmental Accounting Standard Board Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions" and restated the June 30, 2010 fund balances of the Governmental Funds due to a change in fund structure.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 16, 2011, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. While we did not opine on the internal control over financial reporting or on compliance, that report describes the scope of our testing of internal control over financial reporting and compliance and the results of that testing. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*. You should read it in conjunction with this report in assessing the results of our audit.

North Olmsted City School District Cuyahoga County Independent Accountants' Report Page 2

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis*, as listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any other assurance.

We conducted our audit to opine on the financial statements that collectively comprise the District's basic financial statements taken as a whole. The introductory section, the financial section's combining statements, individual fund statements and schedules, and the statistical section information provides additional analysis and are not a required part of the basic financial statements. The financial section's combining statements, individual fund statements and schedules are management's responsibility, and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. These statements and schedules were subject to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole. We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2011 Unaudited

The management discussion and analysis of North Olmsted City School District's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2011. The intent of this management discussion and analysis is to look at the School District's financial performance as a whole. Readers should also review the financial statements and notes to those respective statements to enhance their understanding of the School District's financial performance.

## **Financial Highlights**

Key Financial Highlights for 2011 are as follows:

Net assets increased \$5,031,873 from the previous year.

The General Fund maintains a strong unrestricted cash balance of \$ 13.4 million at June 30, 2011.

Revenues for governmental activities totaled \$60.4 million in fiscal year 2011 as compared to \$54.7 million in fiscal year 2010.

In fiscal year 2011, 90.5 percent of total revenue consisted of general revenues while program revenues accounted for the remaining balance of 9.5 percent.

In fiscal year 2011, total program expenses decreased 1.1 percent from the previous year to \$55.4 million. Instructional expenses made up 58.3 percent of this total while support services accounted for 35.2 percent. Other expenses rounded out the remaining 6.5 percent.

## Reporting the School District as a Whole

Statement of Net Assets and the Statement of Activities

The Statement of Net Assets and Statement of Activities have been prepared using the accrual basis of accounting, similar to the method used by most private-sector companies. Accrual accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the School District's net assets and changes in those net assets. This change in net assets is important because it tells the reader that, for the District as a whole, the financial position of the School District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the School District's performance, demographic and socioeconomic factors and willingness of the community to support the School District. On the other hand, financial factors may include the School District's financial position, liquidity and solvency, fiscal capacity and risk and exposure.

In the Statement of Net Assets and the Statement of Activities, the School District is classified into governmental activities. All of the School District's programs and services are reported here including instruction, support services, operation and maintenance of plant, pupil transportation, food service operation and extracurricular activities.

## Reporting the School District's Most Significant Funds

## Governmental Fund Financial Statements

The governmental fund financial statements provide detailed information about the School District's major funds. The School District uses many funds to account for a multitude of financial transactions. However, these governmental fund financial statements focus on the School District's most significant funds. The School District has only one major governmental fund, the General Fund.

## Governmental Funds

All of the School District's activities are reported as governmental funds, which focus on how money flows into and out of these funds and the balances left at year-end that are available for spending in future periods. These funds are reported using an accounting method called *modified accrual accounting*, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds is reconciled in the financial statements.

## The School District as a Whole

The Statement of Net Assets provides the perspective of the School District as a whole. Table 1 provides a summary of the School District's net assets for 2011 compared to 2010.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2011 Unaudited

Total assets increased by \$8,930,196. The majority of this increase can be attributed to increases of \$4,291,349 in equity in pooled cash and \$5,456,934 in taxes receivable.

Total liabilities increased by \$3,898,323. The majority of the increase can be attributed to an increase in unearned revenue of \$3,423,179.

To determine the overall financial performance of the School District one must consider the relative changes in net assets. By comparing assets and liabilities, one can see that the overall position of the School District has improved as evidenced by the increase in net assets of \$5,031,873. A change in net assets indicates how an entity is providing for future generations.

Prudent management of operating expenses by the Administration has allowed the School District to accumulate a General Fund unrestricted cash balance of \$13.4 million at June 30, 2011. This cash reserve allows the School District to insulate itself from the effects of fluctuations in revenue due to adverse economic conditions and prevents the need to make dramatic cuts in programs and services.

## **Governmental Activities**

The vast majority of revenues supporting all Governmental Activities are general revenues. General revenue totaled \$54.6 million or 90.5 percent of the total revenue. The most significant portion of the general revenues is local property tax. Property tax revenue in fiscal year 2011 increased \$4,887,072 from the previous year. The increase in tax revenue is due primarily to the passage of a 7.9 mill operating levy in November 2010. The collection of taxes from this levy will be phased in over a period of two years starting in fiscal year 2011. Once fully phased in, this levy will generate an additional \$6.5 million in tax revenue annually.

The remaining amount of revenue received is in the form of program revenues amounting to \$ 5.8 million or only 9.5 percent of total revenue. Program revenues are derived from fees for services, sales from fund raising activities, operating grants, interest and contributions.

Although the School District relies heavily upon local property taxes to support its operations, the School District does actively solicit and receive additional grant and entitlement funds to help offset some operating costs.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2011 Unaudited

Approximately 69.6 percent of the School District's budget is used to fund instructional and direct classroom support service expenses while only 9.1 percent of the budget is spent on administrative expenses. The remaining 21.3 percent of the budget is used to maintain the facilities, transport students, providing school lunches, offering sport and extracurricular programs to students. The relationship of these expenses is illustrated in the graph below.

The Administration continues to develop and implement cost containment and revenue enhancement programs to manage the School District's funds in an efficient and economic manner. One method to evaluate the effective use of funds is to compare our cost per pupil expenditures with those of neighboring school districts. Based upon the Ohio Department of Education "2011 Expenditure Flow Model Report", the North Olmsted City School's cost per pupil expenditure was ranked the 16<sup>th</sup> lowest among the 31 school districts in Cuyahoga County. A comparison of some of the neighboring school districts' cost per pupil expenditures can be found in Table 3.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2011 Unaudited

The School District is heavily reliant upon local tax revenues to fund its operations. In fact, local property tax funded approximately 70.5 percent of the total expenses in 2011, compared to 61.0 percent in 2010. Grants and entitlements not restricted to specific programs funded 27.0 percent of expenses, while program revenues funded only 10.4 percent.

The primary source of general revenue is property taxes levied. In fiscal years 2011 and 2010, property taxes accounted for 71.4 and 69.7 percent, respectively, of general revenue. Clearly, the North Olmsted community is by far the greatest source of financial support for the students of the North Olmsted City Schools.

## **School District Funds**

The focus of the School District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful for assessing the School District's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of June 30, 2011, the School District's governmental funds reported combined ending fund balances of \$15,356,532, an increase of \$5,784,408 in comparison with the prior year. Of that amount \$9,275,707 constitutes unassigned fund balances, which is available for spending at the School District's discretion.

The School District's major funds are accounted for using the modified accrual basis of accounting. All governmental funds had total revenues of \$60.5 million and expenditures of \$54.6 million. The net change in fund balance for the year was most significant in the General Fund, an increase of \$5.5 million as compared to a decrease of \$2.4 million in fiscal year 2010.

Total revenues reported in fiscal year 2011 increased \$ 6,357,453 or 11.7 percent from the previous year. This increase in revenue is due to an increase in real estate tax revenue from the passage of a 7.9 mill operating levy in November 2010.

Total expenditures reported in fiscal year 2011 decreased \$1,194,708 or 2.1 percent from the previous year. The decrease is due primarily to the elimination of 2 administrative, 12 teaching and 25 classified staff positions during the year.

## **General Fund Budgeting Highlights**

The School District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant fund to be budgeted is the main operating fund of the School District, the General Fund.

During fiscal year 2011, the School District amended its General Fund Appropriation Budget several times. Property tax collections exceeded the initial budgetary estimates by approximately \$4,179,100 because of the passage of a 7.9 mill operating levy in November 2010. The collection of taxes from this levy will be phased in over a period of two years starting in fiscal year 2011. Once fully phased in, this levy will generate an additional \$6.5 million in tax revenue annually. Approximately 33.0% of the taxes raised from this levy will be paid by commercial property owners.

Total expenses for the year were approximately \$1,826,800 under original budgetary estimates. The savings can be attributed to lower than anticipated energy costs and a reduction in outside tuition paid toward special education programs.

## **Capital Assets and Debt Administration**

## Capital Assets

All capital assets, except land and construction in progress, are reported net of depreciation. At the end of fiscal 2011, the School District had \$ 11.6 million invested in net capital assets. Table 5 shows fiscal 2011 values compared to fiscal 2010.

|                            | \$ 11,626,155 | \$ 12,338,734 |

During fiscal 2011, the School District purchased \$ 167,024 of capital assets. More information on capital assets is presented in Note 8 of the notes to the basic financial statements.

## **Debt Administration**

At June 30, 2011, the School District had outstanding \$ 340,000 bonds payable. Proceeds from the bonds were used for building and facility improvements. The bonds were issued in August 2004 and will mature in varying amounts through December 2014.

The School District's overall legal debt margin was \$74,671,083 with an unvoted debt margin of \$489,679.

More information on debt is presented in Note 13 of the notes to the basic financial statements.

## **School District Outlook**

North Olmsted Schools, like most school districts in Ohio, is facing a serious decline in operating revenues due to the nationwide economic recession, the foreclosure crisis and a cutback in state funding. The anticipated loss in operating revenue threatened to financially destabilize the District. The problem was so enormous, the Board of Education recognized that the only way to fix the problem was through a combination of budgetary cuts, staff concessions, and community support of a new operating levy.

The Board of Education set a goal of reducing operating expenses by \$4.5 million annually. This goal was exceeded when \$2.9 million in budgetary cuts were realized and \$2.8 million in salary concessions were obtained from employees. The majority of the budgetary cuts were obtained with the elimination of 39 staff positions during the 2010-11 school year and an additional 10 staff positions for the 2011-12 school year.

Management's Discussion and Analysis For the Fiscal Year Ended June 30, 2011 Unaudited

The labor unions contributed to the cost reduction plan by agreeing to accept \$2.8 million in salary and fringe benefit concessions. Both unions voluntarily reopened their contracts and did not accept a 2.55% base salary increase they were legally entitled to receive during the 2010-11 school year. The unions also agreed to a base salary freeze for the 2011-12 school year.

The School District's financial position has been further stabilized with the passage of 7.9 mill operating levy in November 2010. This levy will be phased in over a period of two years and will generate an additional \$6.5 million of real estate tax revenue annually. Approximately 33.0% of the taxes will be paid by commercial property owners.

Based upon the combination of the above budgetary cuts, staff concessions, and the passage of a new 7.9 mill operating levy, the District should have adequate operating funds to maintain its current level of academic and extracurricular programs for the next five years. ## **Contacting the School District's Financial Management**

This financial report is designed to provide our citizens, taxpayers and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. The North Olmsted City School District has committed itself to financial excellence for many years. The School District was the first school district in Ohio to receive the Government Financial Officers Association (GFOA) Certificate of Achievement for Excellence in Financial Reporting in 1985 and has received the award for twenty-seven consecutive years. The District has also received the Association of School Business Officials (ASBO) Certificate of Achievement for Excellence in Financial Reporting for the past twenty-four years. If you have any questions about this report or need additional financial information, contact Robert J. Matson, CPA, and Treasurer at North Olmsted City School District, 27425 Butternut Ridge Road, North Olmsted, Ohio 44070, by telephone at 440-779-3551 or by email at Robert.matson@nocseagles.org.

## NOTES TO THE BASIC FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2011

## NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### A. REPORTING ENTITY

The North Olmsted City School District (the District) was established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio. The District is a city school district as defined by Section 3311.03 of the Ohio Revised Code. The District operates under an elected Board of Education consisting of five members and is responsible for providing public education to residents of the District. Average daily membership on, or as of, October 1, 2010 was 4,314. The District employs 329 certificated and 278 non-certificated employees.

The reporting entity is composed of the primary government, component units and other organizations that are included to ensure that the financial statements of the District are not misleading. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the District. For the District, this includes general operations, food service, and student related activities of the District.

Within the District boundaries, there are various nonpublic schools. Current State legislation provides funding to these nonpublic schools. These monies are received and disbursed by the District on behalf of the nonpublic schools by the Treasurer of the School District, as directed by the nonpublic schools. These transactions are reported as a governmental activity of the District.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organizations' governing board and, 1) the District is able to significantly influence the programs or services performed or provided by the organization; or 2) the District is legally entitled to or can otherwise access the organizations' resources; the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of or provided financial support to the organization; or the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt, or the levying of taxes. The District has no component units.

The District is associated with the Lake Erie Educational Computer Association, the Polaris Career Center, the North Olmsted City Schools Education Foundation, and the Ohio Schools Council, which are considered to be jointly governed organizations. The District also participates in a public risk pool managed by the Ohio School Boards Association Workers' Compensation Group Rating Program. These organizations and their relationships with the District are described in more detail in Notes 10 and 15 of these financial statements.

## **B. BASIS OF PRESENTATION**

The financial statements of the District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The District also applies Financial Accounting Standards Board (FASB) statements and interpretations issued on or before November 30, 1989, to its proprietary fund provided they do not conflict with or contradict GASB pronouncements. Following are the more significant of the District's accounting policies.

## NOTES TO THE BASIC FINANCIAL STATEMENTS

# FOR THE YEAR ENDED JUNE 30, 2011

## NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

## B. BASIS OF PRESENTATION (continued)

The District's basic financial statements consist of government-wide statements, including a statement of net assets and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

## Government-wide Financial Statements

The statement of net assets and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The activity of the internal service fund is eliminated to avoid "doubling up" revenues and expenses. However, internal fund services provided and used are not eliminated in the process of consolidation.

The statement of net assets presents the financial condition of the governmental activities of the District at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient for the goods or services offered by the program, and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

## **Fund Financial Statements**

During the year, the District segregates transactions related to certain District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the District at this more detailed level. The focus of governmental financial statements is on major funds rather than reporting funds by type. The major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The internal service fund is presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by fund type.

## NOTES TO THE BASIC FINANCIAL STATEMENTS

## FOR THE YEAR ENDED JUNE 30, 2011

# NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

## C. FUND ACCOUNTING

The District uses funds to maintain its financial records during the fiscal year. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain District functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The various funds of the District are grouped into the categories governmental, proprietary, and fiduciary.

# **Governmental Funds**

Governmental funds are those through which most governmental functions typically are financed. Governmental funds focus on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following is the District's major governmental fund:

<u>General Fund</u> - the General Fund is the operating fund of the school district and is used to account for all financial resources, except those required to be accounted for in another fund.

The other governmental funds of the District account for grants and other resources whose use is restricted to a particular purpose.

## **Proprietary Fund**

The proprietary fund focuses on the determination of the changes in net assets, financial position, and cash flows. Proprietary funds are classified as enterprise or internal service; the District has no enterprise funds.

<u>Internal Service Fund</u> – The Internal Service Fund accounts for the financing of services provided by one department or agency to other departments or agencies of the District on a cost reimbursement basis. The District's only internal service fund accounts for revenue received from other funds and the settlement expenses for medical, surgical, prescription drug, and dental claims of District employees.

# Fiduciary Funds

Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds, and agency funds. Trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the District's own programs. The District has no trust funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The District's agency fund accounts for student activities.

## NOTES TO THE BASIC FINANCIAL STATEMENTS

# FOR THE YEAR ENDED JUNE 30, 2011

# NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

## D. MEASUREMENT FOCUS

<u>Government-wide Financial Statements</u> - The government-wide financial statements are prepared using the economic resources measurement focus. All assets and all liabilities associated with the operation of the District are included on the Statement of Net Assets. The Statement of Activities presents increases (revenues) and decreases (expenses) in the total net assets.

<u>Fund Financial Statements</u> - All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, the internal service fund is accounted for on a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of this fund are included on the statement of net assets. The statement of changes in fund net assets presents increases (i.e., revenues) and decreases (i.e., expenses) in net total assets. The statement of cash flows provides information about how the District finances and meets the cash flow needs of its proprietary activity.

## E. BASIS OF ACCOUNTING

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and the fiduciary funds also use the accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of unearned revenue and in the presentation of expenses versus expenditures.

## Revenues - Exchange and Non-exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. "Measurable" means the amount of the transaction can be determined, and "available" means collectible within the current fiscal year or soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year end.

## NOTES TO THE BASIC FINANCIAL STATEMENTS

# FOR THE YEAR ENDED JUNE 30, 2011

# NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

## E. BASIS OF ACCOUNTING (continued)

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (See Note 6). Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted; matching requirements, in which the District must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year end: property taxes available as an advance, grants, investment earnings, tuition, and student fees.

## Unearned/Deferred Revenue

Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

Property taxes for which there is an enforceable legal claim as of June 30, 2011, but which were levied to finance fiscal year 2012 operations, have been recorded as unearned revenue. Grants and entitlements received before the eligibility requirements are met are also recorded as unearned revenue.

On governmental fund financial statements, receivables that will not be collected within the available period have been reported as deferred revenue.

# Expenditures/Expenses

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

# NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### F. BUDGETARY PROCESS

All funds, other than agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the appropriation resolution and the certificate of estimated resources, which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amounts that the Board of Education may appropriate. The appropriation resolution is the Board's authorization to spend resources and set annual limits on expenditures plus encumbrances at a level of control selected by the Board. The legal level of control has been established by the Board of Education at the fund/object level for the General Fund. The legal level of budgetary control is at the fund, special cost center level for the Rotary Fund. For all other funds the legal level of budgetary control is at the fund level.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the District Treasurer. The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts in the certificate when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts in the final amended certificate that were in effect at the time the final appropriations were passed by the Board of Education.

The appropriation resolution is subject to amendment by the Board throughout the year with the restriction that appropriations may not exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically carried over from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the year.

## G. CASH AND INVESTMENTS

Cash received by the District is deposited in one central bank account with individual fund balance integrity maintained through District records. Monies for all funds are maintained in this account or temporarily transferred to the State Treasurer's investment pool (STAR Ohio) or other short term investments. Following Ohio statutes, the Board of Education has, by resolution, identified the funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during fiscal year 2011 amounted to \$ 22,863 which included \$ 5,874 assigned from other District funds.

Except for investment contracts and money market investments that had a remaining maturity of one year or less at the time of purchase, investments are reported at fair value, which is based on quoted market prices. Investment contracts and money market investments that had a remaining maturity of one year or less at the time of purchase are reported at cost or amortized cost.

The District has invested in the State Treasury Asset Reserve of Ohio (STAR Ohio) during the year. STAR Ohio is an investment pool managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price, which is the price the investment could be sold for on June 30, 2011.

Investments with an original maturity of three months or less at the time of purchase are considered to be cash equivalents.

## NOTES TO THE BASIC FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2011

# NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

## H. INVENTORY

Inventories are presented on a first-in, first-out basis and are expended/expensed when used. Inventories of supplies are reported at cost, whereas inventories held for resale are reported at the lower of cost or market.

## I. RESTRICTED ASSETS

Assets are reported as restricted assets when limitations on their use change the normal understanding of the availability of the asset. Such constraints are either imposed by creditors, contributors, grantors, or laws of other government or imposed by enabling legislation. Restricted assets include the amount required by State statute to be set aside to create a reserve for budget stabilization.

#### J. CAPITAL ASSETS

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported on the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and reductions during the year. Donated capital assets are recorded at their fair market values as of the date received. The District maintains a capitalization threshold of \$ 2,500. The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized. The majority of capital outlay is made from the Permanent Improvements Fund. Actual amounts capitalized for reporting purposes may differ due to the capitalization policy.

All reported capital assets, other than land and construction in progress, are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

| -                       | Estimated     |
|-------------------------|---------------|
| Asset                   | useful life   |
| Land improvements       | 25 - 30 years |
| Buildings               | 60 - 80 years |
| Building improvements   | 25 years      |
| Furniture and equipment | 8 - 35 years  |
| Vehicles                | 15 years      |

## K. INTERFUND BALANCES

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables". These amounts are eliminated in the governmental column of the statement of net assets.

## NOTES TO THE BASIC FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2011

# NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### L. COMPENSATED ABSENCES

Vacation benefits are accrued as a liability in the government wide financial statements as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the District will compensate the employees for the benefits through paid time off or some other means.

Sick leave benefits are accrued in the government wide financial statements as a liability using the vesting method. The liability is based on an estimate of the amount of accumulated sick leave that will be paid as a termination benefit. The liability includes employees who are currently eligible to receive termination benefits and those the District has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employees' wage rates at fiscal year end, taking into consideration any limits specified in the District's termination policy.

A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

## M. ACCRUED LIABILITIES AND LONG-TERM OBLIGATIONS

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements and all payables and accrued liabilities from proprietary funds are reported on the proprietary fund statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, claims and judgments, compensated absences, and contractually required pension contributions that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Long-term notes and capital leases are recognized as a liability on the governmental fund financial statements when due.

## N. NET ASSETS

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. Net assets restricted for other purposes include money for scholarships and data communications support. The government-wide statement of net assets reports \$ 2,982,814 of restricted net assets, none of which are restricted by enabling legislation.

The District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

## NOTES TO THE BASIC FINANCIAL STATEMENTS

## FOR THE YEAR ENDED JUNE 30, 2011

# NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### O. FUND BALANCE

Fund balance is divided into five classifications based primarily on the extent to which the School District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable - The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of loans receivable, as well as property acquired for resale, unless the use of the proceeds from the collection of those receivables or from the sale of those properties is restricted, committed, or assigned.

<u>Restricted</u> - Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions.

<u>Committed</u> - The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the School District Board of Education. Those committed amounts cannot be used for any other purpose unless the School District Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

<u>Assigned</u> - Amounts in the assigned fund balance classification are intended to be used by the School District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the general fund, assigned amounts represent intended uses established by the School District Board of Education.

<u>Unassigned</u> - Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The School District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

## NOTES TO THE BASIC FINANCIAL STATEMENTS

## FOR THE YEAR ENDED JUNE 30, 2011

# NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

## P. OPERATING REVENUES AND EXPENSES

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary fund. For the District, these revenues are charges for services for the self-insurance program. Operating expenses are necessary costs incurred to provide the good or service that is the primary activity of this fund. Revenues and expenses not meeting those definitions are reported as non-operating.

## Q. INTERFUND TRANSACTIONS

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

## R. ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported on the financial statements and accompanying notes. Actual results may differ from those estimates.

# NOTE 2 - CHANGE IN ACCOUNTING PRINCIPLES

For fiscal year 2011, the School District has implemented Governmental Accounting Standard Board (GASB) Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions" and GASB Statement No. 59, "Financial Instruments Omnibus".

GASB Statement No. 54 enhances the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied and by clarifying the existing governmental fund type definitions. This statement establishes fund balance classifications that compromise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. The implementation of this statement resulted in the reclassification of certain funds and restatement of the School District's financial statements.

GASB Statement No. 59 updates and improves guidance for financial reporting and disclosure requirements of certain financial instruments and external investment pools. The implementation of GASB Statement No. 59 did not have an effect on the financial statements of the School District

The implementation of GASB Statement No. 54 had the following effect on fund balances of the major and nonmajor funds as they were previously reported.

# FOR THE YEAR ENDED JUNE 30, 2011

## NOTE 3 - BUDGETARY BASIS OF ACCOUNTING

While the District is reporting financial position, results of operations, and changes in fund balances/retained earnings on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The Statement of Revenues, Expenditures, and Changes in Fund Balances - Budget (Non-GAAP Budgetary Basis) and Actual presented for the General Fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis statements are the following:

- 1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
- 2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
- 3. Encumbrances are treated as expenditures (budget basis) rather than as a reservation of fund balance (GAAP basis).

The following table summarizes the adjustments necessary to reconcile the GAAP basis statements to the budgetary basis statements for the General Fund.

| Net Change in Fund Balance       |         |           |  |  |
|----------------------------------|---------|-----------|--|--|
|                                  | General |           |  |  |
|                                  |         | Fund      |  |  |

| Adjustments, increase (decrease) |         |           |  |  |
| Revenue accruals                 |         | 851,295   |  |  |
| Expenditure accruals             |         | 1,518,538 |  |  |
| Funds budgeted elsewhere **      |         | 172,343   |  |  |
| Encumbrances                     |         | 243,820   |  |  |
| GAAP basis, as reported          | \$      | 5,519,556 |  |  |

<sup>\*\*</sup> As part of Governmental Accounting Standards Board Statement No. 54, "Fund Balance Reporting", certain funds that are legally budgeted in separate special revenue funds are considered part of the General Fund on a GAAP basis. This includes the Miscellaneous Local Projects Fund, Rotary Fund, Public Support Services Fund, and the Other Grants Fund.

# NOTE 4 - FUND BALANCES

Fund balance is classified as nonspendable, restricted, committed, assigned and/or unassigned based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the government funds. The constraints placed on a fund for the major governmental funds and all other governmental funds are presented below:

|                         | General       | Governmental |               |  |
|-------------------------|---------------|--------------|---------------|--|
| Fund balances           | Fund          | Funds        | Total         |  |
| Nonspendable            |               |              |               |  |

## NOTES TO THE BASIC FINANCIAL STATEMENTS

# FOR THE YEAR ENDED JUNE 30, 2011

## NOTE 5 - DEPOSITS AND INVESTMENTS

## A. LEGAL REQUIREMENTS

State statutes classify monies held by the District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the District Treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits the Board of Education has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit, or by savings or deposit accounts, including passbook accounts.

Protection of the District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution, or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Interim monies may be invested in the following securities:

- 1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States:
- Bonds, notes, debentures, or any other obligation or security issued by any federal government agency or instrumentality including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
- Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least 2 percent and be marked to market daily, and the term of the agreement must not exceed thirty days;
- 4. Bonds and other obligations of the State of Ohio;
- 5. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
- 6. The State Treasurer's investment pool (STAR Ohio):
- Commercial paper and bankers' acceptances (if authorized by the Board of Education), and
- 8. Under limited circumstances, corporate debt interests rated in either of the two highest rating classifications by at least two nationally recognized rating agencies.

## NOTES TO THE BASIC FINANCIAL STATEMENTS

## FOR THE YEAR ENDED JUNE 30, 2011

## NOTE 5 - DEPOSITS AND INVESTMENTS (continued)

## A. LEGAL REQUIREMENTS (continued)

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. An investment must mature within five years from the date of purchase, unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or qualified trustee or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

## **B. DEPOSITS**

Custodial credit risk is the risk that, in the event of a bank failure, the District's deposits may not be returned. The District does not have a deposit policy for custodial credit risk. At fiscal year end, the carrying amount of the District's deposits was \$14,943,531 and the bank balance was \$15,239,531. Of the bank balance, \$250,000 was covered by federal depository insurance and \$14,989,531 was uninsured. Of the remaining balance, \$14,989,531 was collateralized with securities held by the pledging institution's trust department not in the District's name.

At fiscal year end, the District had \$2,041 in cash on hand which is included on the balance sheet of the District as part of "Equity in pooled cash".

## C. INVESTMENTS

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. As of June 30, 2011, the District had the following investments:

|   | Investment           |              |
|---|----------------------|--------------|
|   | Maturities           | Fair Value   |
| Investment in State Treasurer's Investment Pool | Less than six months | \$ 4,847,918 |

## D. INTEREST RATE RISK

The Ohio Revised Code generally limits security purchases to those that mature within five years of the settlement date.

#### E. CREDIT RISK

The District follows the Ohio Revised Code that limits its investment choices as discussed in Note 4 - A above. STAR Ohio carries a rating of AAAm by Standard and Poor's and is an authorized investment under the Ohio Revised Code.

## NOTES TO THE BASIC FINANCIAL STATEMENTS

# FOR THE YEAR ENDED JUNE 30, 2011

# NOTE 5 - DEPOSITS AND INVESTMENTS (continued)

#### F. CONCENTRATION OF CREDIT RISK

The District places no limit on the amount that may be invested in any one issuer. The District's total investments (100 percent) are in STAR Ohio.

## G. CUSTODIAL CREDIT RISK

For an investment, custodial risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District has no investment policy dealing with investment custodial risk beyond the requirement in State statute that prohibits payment for investments prior to the delivery of the securities representing such investments to the treasurer or qualified trustee.

## **NOTE 6 - PROPERTY TAXES**

Property taxes are levied and assessed on a calendar year basis while the School District fiscal year runs from July through June. First half tax collections are received by the School District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real, public utility and tangible personal property (used in business) located in the School District. Real property tax revenue received in calendar 2011 represents collections of calendar year 2010 taxes. Real property taxes received in calendar year 2011 were levied after April 1, 2010, on the assessed value listed as of January 1, 2010, the lien date. Assessed values for real property taxes are established by State law at 35 percent of appraised market value. Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31 with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenue received in calendar 2011 represents collections of calendar year 2010 taxes. Public utility real and tangible personal property taxes received in calendar year 2011 became a lien December 31, 2009, were levied after April 1, 2010 and are collected in 2010 with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property currently is assessed at varying percentages of true value.

Tangible personal property tax revenue received during calendar 2011 (other than public utility property tax) represents the collection of 2011 taxes levied against local and inter-exchange telephone companies. Tangible personal property tax on business inventory, manufacturing machinery and equipment, furniture and fixtures is no longer levied and collected. Tangible personal property taxes received from telephone companies in calendar year 2011 were levied after October 1, 2010, on the value as of December 31, 2010. Payments by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semi-annually. If paid annually, payment is due April 30; if paid semi-annually, the first payment is due April 30, with the remainder payable by September 20. Tangible personal property taxes paid by April 30 are usually received by the School District prior to June 30; however this year the settlement was late.

## NOTES TO THE BASIC FINANCIAL STATEMENTS

# FOR THE YEAR ENDED JUNE 30, 2011

# NOTE 6 - PROPERTY TAXES (continued)

The School District receives property taxes from Cuyahoga County. The County Auditor periodically advances to the School District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2011, are available to finance fiscal year 2011 operations. The amount available to be advanced can vary based on the date the tax bills are sent.

Accrued property taxes receivable includes real property, public utility property and tangible personal property taxes which are measurable as of June 30, 2011 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the late settlement of tangible personal property taxes and the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred revenue.

The amount available as an advance at June 30, 2011, was \$6,164,650 in the General Fund and \$160,891 in the Permanent Improvements Fund. The amount available as an advance at June 30, 2010, was \$4,079,802 in the General Fund.

On a full accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue, while on a modified accrual basis the revenue has been deferred.

The assessed values upon which the fiscal year 2011 taxes were collected are:

## NOTE 7 - RECEIVABLES

Receivables at June 30, 2011, consisted of property taxes, accounts, interfund and due from other governments. All receivables are considered substantially collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current year guarantee of federal funds. All receivables are expected to be collected within one year.

These amounts are represented as "Interfund Receivable/Payable" on the balance sheet. The loans were made to support programs and projects in the Special Revenue Funds and Agency Funds until permanent funding is received.

## NOTE 10 - RISK MANAGEMENT

## A. PROPERTY AND LIABILITY

The District is exposed to various risks of loss related to torts, theft, damage to, and destruction of assets, errors and omissions, injuries to employees and natural disasters. During fiscal year 2011, the District contracted with Indiana Insurance Company for property insurance. General liability is protected by Indiana Insurance Company with a \$ 1 million per occurrence, \$ 2 million aggregate with a \$ 5 million supplemental umbrella policy. Vehicles are covered by Indiana Insurance Company. Automobile liability coverage is \$ 1 million for each occurrence with a \$ 5 million supplemental umbrella policy. Settled claims have not exceeded this commercial coverage in any of the past three years. There have been no significant reductions in coverage from prior years. Position bonds of \$ 30,000 are maintained for the Superintendent and Board President and \$ 100,000 for the Treasurer from Ohio Casualty. The District provides life insurance, disability and accidental death and dismemberment insurance to its employees, through Minnesota Life Insurance Company.

## B. WORKERS' COMPENSATION

The District participated in the Ohio Association of School Business Officials Workers' Compensation Group Rating Program (GRP), an insurance purchasing pool. The intent of the GRP is to achieve the benefit of a reduced premium for the District by virtue of its grouping and representation with other participants in the GRP. The firm of Sheakley UniService, Inc. provides administrative, cost control and actuarial services to the GRP. Participation in the GRP is limited to school districts that can meet the GRP's selection criteria.

## C. EMPLOYEE MEDICAL BENEFITS

The District provides employee medical, surgical, prescription drug and dental benefits through a self-insurance program administered by Medical Mutual of Ohio. The District limits its liability for medical and surgical claims by maintaining a specific stop-loss threshold of \$ 100,000.

The claim liability of \$572,000 reported at June 30, 2011 was estimated by Medical Mutual of Ohio and is based on the requirements of Governmental Standards Board Statement No. 10, which requires that a liability for unpaid claims costs, including estimates of costs related to incurred but not reported claims, be reported. The estimate was not affected by incremental claim adjustment expenses and does not include other allocated or unallocated claim adjustment expenses. Changes in the balance of claims liability during the year ended June 30, 2011 and 2010 are summarized below. Incurred claims and claims payments are not segregated between current and prior years claims due to the impracticability of obtaining such information.

## NOTE 11 - DEFINED BENEFIT PENSION PLANS

## A. SCHOOL EMPLOYEES RETIREMENT SYSTEM

Plan Description - The School District contributes to the School Employees Retirement System (SERS), a cost-sharing multiple employer pension plan. SERS provides retirement, disability, survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by state statute per Chapter 3309 of the Ohio Revised Code. SERS issues a publicly available, stand-alone financial report that includes financial statements and required supplementary information. That report may be obtained by writing to the School Employees Retirement System, 100 East Broad Street, Suite 100, Columbus, Ohio 43215-3746, or by calling toll free (800) 878-5853. It is also posted on SERS' website at www.ohsers.org under Employee/Audit Resources.

Funding Policy - Plan members are required to contribute 10 percent of their annual covered salary and the School District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended, up to statutory maximum amounts, by the SERS' Retirement Board. The Retirement Board acting with the advice of the actuary, allocates the employer contribution rate among four of the funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund) of the System. For the fiscal year ending June 30, 2011, the allocation to pension and death benefits is 11.81 percent. The remaining 2.19 percent of the 14 percent employer contribution rate is allocated to the Health Care and Medicare B Funds. The School District's required contributions for pension obligations to SERS for the fiscal years ended June 30, 2011, 2010, and 2009 were \$ 931,964, \$ 1,008,253, and \$ 726,876 respectively; 37.5 percent has been contributed for 2011 and 100 percent has been contributed for fiscal years 2010 and 2009.

# B. STATE TEACHERS RETIREMENT SYSTEM

Plan Description - The School District participates in the State Teachers Retirement System of Ohio (STRS Ohio), a cost-sharing, multiple employer public employee retirement plan. STRS Ohio provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS Ohio issues a stand-alone financial report that may be obtained by writing to STRS Ohio, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Ohio Web site at <a href="https://www.strsoh.org">www.strsoh.org</a>.

Plan options - New members have a choice of three retirement plans options. In addition to the Defined Benefit (DB) Plan, new members are offered a Defined Contribution (DC) Plan and a Combined Plan. The DB plan allows members to allocate all their member contributions and employer contributions equal to 10.5% of earned compensation among various investment choices. The Combined Plan offers features of both the DC Plan and the DB Plan. In the Combined Plan, member contributions are allocated to investment choices by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. Contributions into the DC Plan and the Combined Plan are credited to member accounts as employers submit their payroll information to STRS Ohio, generally on a biweekly basis. DC and Combined Plan members will transfer to the DB Plan during their fifth year of membership unless they permanently select the DC or Combined Plan.

DB Plan Benefits – Plan benefits are established under Chapter 3307 of the Revised Code. Any member may retire who has (i) five years of service and attained age 60; (ii) 25 years of service credit and attained age 55; or (iii) 30 years of service credit regardless of age. The annual retirement allowance, payable for life, is the greater of the "formula benefit" or the "money-purchase benefit" calculation. Under the "formula benefit," the retirement allowance is based on years of credited service and final average salary, which is the average of the member's three highest salary years. The annual allowance is calculated by using a base percentage of 2.2% multiplied by the total number of years of service credit (including Ohio-valued purchased credit) times the final average salary. The 31<sup>st</sup> year of earned Ohio service credit is calculated at 2.5%. An additional one-tenth of a percent is added to the calculation for every year of earned Ohio service over 31 years (2.6% for 32 years, 2.7% for 33 years and so on) until 100% of final average salary is reached. For members with 35 or more years of Ohio contributing service, the first 30 years will be calculated at 2.5% instead of 2.2%. Under the "money-purchase benefit" calculation, a member's lifetime contributions plus interest as specified rates are matched by an equal amount from other STRS Ohio funds. This total is then divided by an actuarially determined annuity factor to determine the maximum annual retirement allowance.

DC Plan Benefits – Benefits are established under Sections 3307.80 to 3307.89 of the Revised Code. For members who select the DC Plan, all member contributions and employer contributions at a rate of 10.5% are placed in an investment account. The member determines how to allocate the member and employer money among various investment choices. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump-sum withdrawal. Employer contributions into members' accounts are vested after the first anniversary of the first day of paid service. Members in the DC Plan who become disabled are entitled only to their account balance. If a member dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

# NOTE 11 - DEFINED BENEFIT PENSION PLANS (continued)

## B. STATE TEACHERS RETIREMENT SYSTEM (continued)

Combined Plan Benefits – Members contributions are allocated by the members, and employer contributions are used to fund a defined benefit payment. A member's defined benefit is determined by multiplying 1% of the member's final average salary by the member's years of service credit. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60. The defined contribution portion of the account may be taken as a lump sum or converted to a lifetime monthly annuity at age 50.

A retiree of STRS Ohio is eligible for reemployment as a teacher following the elapse of two months from the date of retirement. Contributions are made by the reemployed member and employer during the reemployment. Upon termination of reemployment or age 65, whichever comes later, the retiree is eligible for an annuity benefit or equivalent lump-sum payment in addition to the original retirement allowance. A reemployed retiree may alternatively receive a refund of only member contributions with interest before age 65, once employment is terminated.

Benefits are increased annually by 3% of the original base amount for DB plan participants.

A DB or Combined Plan member with five or more years credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits. A death benefit of \$1,000 is payable to the beneficiary of each deceased retired member who participated in the DB Plan. Death benefit coverage up to \$2,000 can be purchased by participants in the DB, DC or Combined Plans. Various other benefits are available to members' beneficiaries.

Chapter 3307 of the Revised Code provides statutory authority for member and employer contributions. Contribution rates are established by the State Teachers Retirement Board, upon recommendations of its consulting actuary, not to exceed statutory maximum rates of 10% of member and 14% for employers. Contribution requirements and contributions actually made for the fiscal year ended June 30, 2011, were 10% of covered payroll for members and 14% for employers. The School District's required contributions for pension obligations to STRS Ohio for the fiscal years ended June 30, 2011, 2010, and 2009 were \$3,235,398, \$3,323,424, and \$3,155,308, respectively 83.7 percent has been contributed for fiscal year 2011 and 100 percent for fiscal years 2010 and 2009.

#### C. SOCIAL SECURITY SYSTEM

Effective July 1, 1991, all employees not otherwise covered by the School Employees Retirement System or the State Teachers Retirement System of Ohio have an option to choose Social Security or the School Employees Retirement System. As of June 30, 2011, two members of the Board of Education have elected Social Security. The Board's liability is 6.2 percent of wages paid.

# NOTE 12 – OTHER POST-EMPLOYMENT BENEFITS (OPEB)

#### A. SCHOOL EMPLOYEE RETIREMENT SYSTEM

In addition to a cost-sharing multiple-employer defined benefit pension plan the School Employees Retirement System of Ohio (SERS) administers two postemployment benefit plans.

Medicare Part B Plan - The Medicare Part B plan reimburses Medicare Part B premiums paid by eligible retirees and beneficiaries as set forth in Ohio Revised Code (ORC) 3309.69. Qualified benefit recipients who pay Medicare Part B premiums may apply for and receive a monthly reimbursement from SERS. The reimbursement amount is limited by statute to the lesser of the January 1, 1999 Medicare Part B premium or the current premium. The Medicare Part B monthly premium for calendar year 2011 was \$96.40 for most participants, but could be as high as \$369.10 per month depending on their income. SERS' reimbursement to retirees was \$45.50. The Retirement Board, acting with the advice of the actuary, allocates a portion of the current employer contribution rate to the Medicare B Fund. For fiscal year 2011, the actuarially required allocation is .76%. The School District's contributions for the years ended June 30, 2011, 2010 and 2009 were \$55,422, \$59,959 and \$59,973 respectively; 37.5 percent has been contributed for fiscal year 2011 and 100 percent for fiscal years 2010 and 2009.

Health Care Plan - ORC 3309.375 and 3309.69 permit SERS to offer health care benefits to eligible retirees and beneficiaries. SERS' Retirement Board reserves the right to change or discontinue any health plan or program. SERS offers several types of health plans from various vendors, including HMOs, PPOs, Medicare Advantage and traditional indemnity plans. A prescription drug program is also available to those who elect health coverage. SERS employs two third-party administrators and a pharmacy benefit manager to manage the self-insurance and prescription drug plans, respectively.

The ORC provides the statutory authority to fund SERS' postemployment benefits through employer contributions. Active members do not make contributions to the postemployment benefit plans.

The Health Care Fund was established under, and is administered in accordance with Internal Revenue Code § 105(e). Each year after the allocation for statutorily required benefits, the Retirement Board allocates the remainder of the employer 14% contribution to the Health Care Fund. For the year ended June 30, 2011, the health care allocation is 1.43%. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, prorated according to service credit earned. State law provides that no employer shall pay a health care surcharge greater than 2% of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5% of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2011, the minimum compensation level was established at \$35,800. The surcharge, added to the unallocated portion of the 14% employer contribution rate is the total amount assigned to the Health Care Fund. The School District's contributions assigned to health care for the years ended June 30, 2011, 2010, and 2009 were \$88,867, \$96,250 and \$392,625 respectively; 37.5 percent has been contributed for fiscal year 2011 and 100 percent for fiscal years 2010 and 2009.

The SERS Retirement Board establishes the rules for the premiums paid by the retirees for health care coverage for themselves and their dependents or for their surviving beneficiaries. Premiums vary depending on the plan selected, qualified years of service, Medicare eligibility, and retirement status.

The financial reports of SERS' Health Care and Medicare B plans are included in its Comprehensive Annual Financial Report. The report can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

## B. STATE TEACHERS RETIREMENT SYSTEM

Plan Description – The School District contributes to the cost sharing multiple employer defined benefit Health Plan administered by the State Teachers Retirement System of Ohio (STRS Ohio) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS Ohio. Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS Ohio which may be obtained by visiting <a href="https://www.strsoh.org">www.strsoh.org</a> or by calling (888) 227-7877.

Funding Policy – Ohio law authorizes STRS Ohio to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS Ohio. Active employee members do not contribute to the Plan. All benefit recipients pay a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For 2011, STRS Ohio allocated employer contributions equal to 1 percent of covered payroll to the Health Care Stabilization Fund. The School District's contributions for health care for the fiscal years ended June 30, 2011, 2010, and 2009, were \$ 248,876, \$ 255,648, and \$ 242,716, respectively; 83.7 percent has been contributed for fiscal year 2011 and 100 percent for fiscal years 2010 and 2009.

## NOTE 13 - LONG-TERM OBLIGATIONS

Changes in the District's long-term obligations during fiscal year 2011 were as follows:

## NOTE 15 - JOINTLY GOVERNED ORGANIZATION

## A. LAKE ERIE EDUCATION COMPUTER ASSOCIATION

The Lake Erie Educational Computer Association (LEECA) is a jointly governed organization comprised of thirty school districts. The jointly governed organization was formed to provide data processing services for accounting, administrative and instructional functions of member districts. Each of the governments of these districts supports LEECA based upon a per pupil charge dependent upon the software packages utilized. The LEECA assembly consists of a superintendent or designated representative from each participating district and a representative from the fiscal agent.

LEECA is governed by a board of directors chosen from the general membership of the LEECA assembly. The board of directors consists of a representative from the fiscal agent, the chairman of each operating committee, and at least one assembly member from each county from which participating districts are located. Financial information can be obtained by contacting the Treasurer at the Educational Service Center of Lorain County, which serves as fiscal agent, located at 1885 Lake Avenue, Elyria, Ohio 44035. During the year ended June 30, 2011, the District paid \$ 108,189 to LEECA.

# B. POLARIS CAREER CENTER

The Polaris Career Center is a separate body politic and corporate, established by the Ohio Revised Code to provide for the vocational and special needs of the students. Its Board of Education consists of representatives from the board of each participating school district. The Board is responsible for approving its own budgets, appointing personnel, and accounting and finance related activities. North Olmsted City School District students may attend the vocational school. Each school district's control is limited to its representation on the Board. Financial information can be obtained by contacting the Polaris Career Center, 7285 Old Oak Blvd., Middleburg Heights, Ohio 44130.

## NOTES TO THE BASIC FINANCIAL STATEMENTS

## FOR THE YEAR ENDED JUNE 30, 2011

# NOTE 15 - JOINTLY GOVERNED ORGANIZATION (continued)

## C. NORTH OLMSTED CITY SCHOOLS EDUCATION FOUNDATION

The North Olmsted City Schools Education Foundation (Foundation) is a jointly governed organization established by the Ohio Revised Code to support and enhance educational opportunities for the youth of the North Olmsted Community. The trustees of the Foundation consist of five ex officio trustees and up to fifteen members selected by a nominating committee appointed by the ex officio trustees.

The ex officio trustees are composed of the following individuals: the Superintendent of the North Olmsted City School District, a member of the North Olmsted Board of Education, a member of the North Olmsted PTA Council, a member of the North Olmsted City Schools' Financial Advisory Board, and a member of the Community Education Advisory Board. All trustees are voting members. The Foundation is responsible for approving its own budgets, appointing personnel, creation of committees, and accounting and financial related activities. Financial information can be obtained by contacting Carrie Copfer, c/o The North Olmsted Board of Education, 27425 Butternut Ridge Road, North Olmsted, Ohio 44070.

## D. OHIO SCHOOLS COUNCIL

The Ohio Schools' Council Association (Council) is a jointly governed organization among 126 school districts. The jointly governed organization was created by school districts for the purpose of saving money through volume purchases. Each district supports the Council by paying an annual participation fee. Each school district member's superintendent serves as a representative of the Assembly. The Assembly elects five of the Council's Board members and the remaining four are representatives of the Greater Cleveland School Superintendents' Associations. The Council operates under a nine-member Board of Directors (the Board). The Board is the policy making authority of the Council. The Board meets monthly September to June. The Board appoints an Executive Director who is responsible for receiving and disbursing funds, investing available funds, preparing financial reports for the Board and Assembly and carrying out such other responsibilities as designated by the Board. In fiscal year 2011 the School District paid \$ 2,055 to the Council. Financial information can be obtained by contacting David Cottrell, the Executive Director of the Ohio Schools' Council at 6133 Rockside Road, Suite 10, Independence, Ohio 44131.

The School District participates in the natural gas purchase program. This program allows the School District to purchase natural gas at reduced rates. Energy USA served as the natural gas supplier and program manager from October 1, 2008 to September 30, 2010. Compass Energy has been selected as the new supplier and program manager for the period from October 1, 2010 through March 31, 2013. There are currently 143 participants in the program including the North Olmsted City School District. The participants make monthly payments based on estimated usage. Each September, these estimated payments are compared to their actual usage for the year (July to June). Districts that paid more in estimated billings than their actual billings are issued credits on future billings beginning in September until the credits are exhausted and districts that did not pay enough on estimated billings are invoiced for the difference on the September monthly estimated billing.

## NOTES TO THE BASIC FINANCIAL STATEMENTS

# FOR THE YEAR ENDED JUNE 30, 2011

## **NOTE 16 - CONTINGENCIES**

The District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and is subject to audit by the grantor agencies.

Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2011.

# NOTE 17 - SET-ASIDES

The District is required by State statute to annually set aside, in the General Fund, an amount based on a statutory formula for the purchase of textbooks and other instructional materials, and an equal amount for the acquisition and construction of capital improvements. Amounts not spent by the end of the fiscal year or offset by similarly restricted resources received during the year must be held in cash at year end. These amounts must be carried forward and used for the same purposes in future years. In addition, the District has set aside money for budget stabilization. The following cash basis information identifies the changes in the fund balance reserves for textbooks, capital improvements, and budget stabilization during fiscal year 2011.

|  |                | Capital      | Budget          |

The District had qualifying disbursements during the fiscal year that reduced the textbook set-aside below zero. This extra amount may be used to reduce the set-aside requirements of future fiscal years. Although the District had qualifying disbursements and offsets during the fiscal year that reduced the set-aside amount below zero for capital maintenance set-aside, this amount may not be used to reduce the set-aside requirement for future years.

## NOTES TO THE BASIC FINANCIAL STATEMENTS
